I have over ten years of experience as a professional working in both print and web media. Throughout my career as a Graphic Designer, I have gained extensive experience in many areas of the graphic design industry. I have earned a BFA in Graphic Design and a diverse design background. I am a strong team player and leader with the skills to take creative projects from conception to completion. Always looking to grow with the ever-evolving technology, I enjoy staying current on all of the latest tools for my field in an effort to push the 'creative' limits whenever possible. With a focus on conceptual design, I create visual designs in an effort to effectively communicate the appropriate message on every project no matter how big or small. I have worked in both large and small companies developing and maintaining brand materials, websites, brochures, catalogs and many other types of printed media.

In my most recent position as the Art Director for the Marketing department of a Leading Apparel company, I led the Marketing team in many design projects including the design of the bi-annual Magic Tradeshow booth, which earned the "Most Innovative Booth" award in 2007. In addition to creating marketing materials, I created designs for apparel and merchandise.

In this position, I designed corporate strategy pieces and worked to maintain and ensure the proper use of the brand standards for all external and internally facing company communications. I also developed the corporate voice and wrote all the creative copy for all print and web materials.

Apart from graphic design, I also enjoy the outdoors, including my newest hobby, geocaching. I love to paint and create in many mediums. I have also worked as a comedic actor and improv actor in many Improv Festivals across the United States. I also enjoy photography, film, scuba diving and fishing.

If you are looking for a creative and hard working team member that has the ability to wear many different hats then I am the perfect person for the position at your company.

Thank you for your consideration and I look forward to hearing from you soon.

Douglas Wickham.
